Dear Parents and Carers

You may have heard in the news or seen a TV advert about a government scheme to support families with internet access during lockdown.

I have now received a limited number of WiFi codes to support families with children learning at home. They can be used to provide free internet access for those who do not currently have any. In addition, they can be used to top up broadband for those who are struggling with the larger number of family members trying to use the internet simultaneously. The WiFi codes provide free internet access until July 2021.

As mentioned, the number of codes is limited but if you feel that your family would benefit from this support, please do not hesitate to contact me and I will provide you with further details.

Regards

Niki Wilson
